PROFESSIONAL SUMMARY

Versatile, immediately available professional with experience spanning cloud infrastructure operations and product growth and digital marketing. Most recently spent 1.5 years as a Cloud Engineer supporting Azure Compute capacity management and incident resolution for enterprise customers on Microsoft's Global Capacity Team at LTIMindtree. Prior to that, worked on Mamaearth's Product Growth team, independently owning improvements to the company's homepage and app while supporting CRM, lifecycle marketing, and analytics. Comfortable operating on both the technical side (Azure, incident management, capacity planning) and the product and growth side (CMS platforms, CRM automation, web and app analytics). B.Tech in Computer Science and Engineering from Lovely Professional University.

SKILLS

Cloud & Technical: Microsoft Azure, Azure Compute, Incident Management (ICM), Root Cause Analysis, SLA Management, VM Scale Sets, Availability Zones, Resource Groups, Quota & Capacity Management

Product, Growth & Marketing: Product Growth, D2C E-Commerce, Website & App Operations, CMS (Magento, Shopify, Strapi), CRM & Lifecycle Marketing (MoEngage, AppsFlyer), Google Analytics (GA4), Power BI, Firebase

PROFESSIONAL EXPERIENCE

Azure Cloud Engineer, Microsoft Azure Project (Global Capacity Team), LTIMindtree

Feb 2025 to Jul 2026

Hyderabad, India

- Supported Azure Compute capacity operations for Premium (\$500) enterprise customers on Microsoft's Global Capacity Team, handling quota requests, allocation failure troubleshooting, and incident resolution within defined SLAs across rotational shifts.
- Created and managed RDQs (quota requests) and ICMs (incident cases), applying correct severity classification based on issue type and business impact.
- Performed root cause analysis using internal tooling (Jarvis) to review subscription quota, offer restrictions, and logical to physical zone mapping, and by analyzing VMapiQosEvents and Compute Allocation Activity logs.
- Worked across Resource Groups, VM Scale Sets, Availability Sets, and Availability Zones to resolve cluster capacity constraints, and supported cluster management operations including ECR, Defrag, and OFR.

Recognition: iWin Spot Award, Super Crew (LTIMindtree, Jan 2026), for consistently going above and beyond in incident and capacity operations.

Website & App Operations Intern, Product Growth Team, Mamaearth (Honasa Consumer Ltd.)

Aug 2024 to Jan 2025

D2C Beauty & Personal Care Brand | Hyderabad, India

- Contributed to product growth initiatives for Mamaearth's D2C ecommerce platform, supporting website and app feature rollouts, usability improvements, and site and app performance optimization.
- Independently owned improvements to the company's homepage and mobile app experience, working closely with product, design, and engineering to ship changes that enhanced user experience and conversion.
- Managed content and catalog operations across Magento, Shopify, and Strapi CMS platforms, and tracked product and growth metrics using Power BI, Google Analytics (GA4), and Firebase to generate actionable insights.
- Supported CRM and lifecycle marketing initiatives via MoEngage and AppsFlyer to improve customer engagement, retention, and campaign performance across the app and website.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Lovely Professional University, Jalandhar | 2020 to 2024 | CGPA: 7.78

CERTIFICATIONS

- Meta, Introduction to Front End Development
- Simplilearn, Innovating with Google Cloud AI
